

Crown Global's Riccardo Gambineri to Speak at the US/UK Tax Planning: America 2019 Conference on May 6th in Los Angeles

Mr. Gambineri will discuss how to maximize investment returns and flexibility through a US and UK Dual Compliant Variable Life insurance policy.

NEW YORK – March 22, 2019 – [Crown Global Insurance Group LLC](#), a leading provider of investment-enhancing solutions for ultra-high net worth individuals and institutional investors, announced today that Senior Vice President Riccardo Gambineri will deliver a presentation on “Planning with Life Insurance” at the [US/UK Tax Planning: America 2019](#) conference on May 6th at the Peninsula Beverly Hills at 9882 S Santa Monica Blvd. in Los Angeles.

“Recent tax legislation in the US and uncertainty around Brexit in the UK are creating ongoing challenges for ultra-high net worth investors,” said Gambineri. “I will discuss how a dual compliant life insurance policy can maximize tax efficiency, while also offering access to non-US investment funds and tax-deferred compounding of investment gains for US citizens living in the UK.”

Crown Global's clients and industry colleagues can enjoy the conference for free. To register, [please click here](#).

In a US and UK dual compliant life insurance policy, income and gains on the assets in the separate account are generally not subject to US and UK income tax as earned. Consequently, the account is managed more efficiently based on solely economic factors, especially beneficial for portfolios that face increased market volatility.

While policyholders cannot personally manage separate account assets, they can designate an investment manager as well as broad investment guidelines. Policyholders can also revise the asset allocations out of existing options from time to time.
